I've got the site covered all next week, but we don't have anyone for Saturday. John is moving his daughter to Alabama. I moved things around on Thursday and Friday to be able to be there, but can't be there Saturday.

Nick is on phone duty. Monica, would you allow him to be there and be

on phone duty on Saturday? If not, we need to look outside “the site family” of OSCs who are most familiar with the site. I know Gary feels most comfortable keeping consistency within this group.

Nick/Monica – is it acceptable for Nick to oversee site work 2/16?

Thanks
